Open sourced Libraries

🔗/[Banana](#) *A Functional JSON mapper*

🔗/[Pickme](#) *A picker view for iOS in Swift*

Contributions

🔗/[Carthage](#) *Fixed Carthage build failure when invoked from subdirectory of project having git submodules*

🔗/[SwiftPM](#) *Patched Swift Package Manager to organize files into groups in generated Xcode Project*

Experience

Housing.com / iOS Developer

Sept / 2015 - Present

- Developed and owned several modules of the iOS app (Tag based search, Buying guide, MQTT Analytics, etc.)
- Mentored freshers and established best practices (light weight view controllers, mandatory unit tests for checked in code, etc.)

IGATE Global Solutions / iOS Developer

June / 2012 - Aug / 2015

- Developed multiple iOS apps for an MNC client.
- Helped migrate several legacy iOS apps to use latest features (universal storyboards, asset catalogs, etc.)

Education

Bachelor of Technology in

Oct / 2007 - May / 2011

Electronics & Communications Engineering from

74.5 %

Swarnandhra College of Engineering & Technology
